### Kariong Mountains High School Update 20/03/20

As we go into the weekend, I hope that you have the opportunity to just enjoy family and step aside from outside pressures for just a little while. So much has been cancelled or postponed, let us take the time to try and focus on what we still have.

School continues to be operational, as directed by the DoE following advice from Health.

#### Latest News:

NAPLAN tests has been cancelled across Australia, so we shall also cancel all practice NAPLAN tests that were scheduled for next week, as well.
